PROJECTS

- **PromptTales:**
PromptTales is a web application where users can easily submit story prompts. PromptTales leverages the capabilities of AI, including GPT-3, to craft captivating stories inspired by these prompts. Users also have the ability to like, save, and share the stories they generate.
- **AppointEase:**
AppointEase simplifies the appointment booking process for users. New users can easily sign up, while existing users can log in to access their accounts. Once logged in, users can book appointments with ease, and a confirmation email is sent to them, ensuring a smooth booking experience.
- **Eth-Cops:**
Creating a crypto-currency vulnerability tool and generating a risk factor to ensure that users do not get scammed for it. Generate a risk factor based on the data provided by APIs and display it to the user.
- **Hostel Management System:**
Simplify hostel life with our user-friendly platform for students. Submit leave requests, lodge complaints, access room and mess details. Faculty, warden, and students benefit from streamlined communication. Warden approves leaves and reviews complaints for efficient management.
